06. The Inspiration

We pay attention to what's happening around us all the time: the way people live inspires us to create.

10. The Design Studio

Moduleo™ floors are all about design. What makes Moduleo™ floors so beautiful? And what are the features of luxury vinyl planks and tiles?

18. The Collection

Browse through the various room settings, find your inspiration and select your favourite design floor.

70. The Overview

Summary of the Moduleo™ Design Floor collections Transform, Transform DS+, Impress and Parquetry.

80. The Company

Your Moduleo™ floor is entirely designed and engineered in Belgium. Meet the company behind the floor.

84. The Warranty

Terms and conditions of the Moduleo™ product warranty.

THE WAY YOU LIVE **INSPIRES** US TO C R E

6.

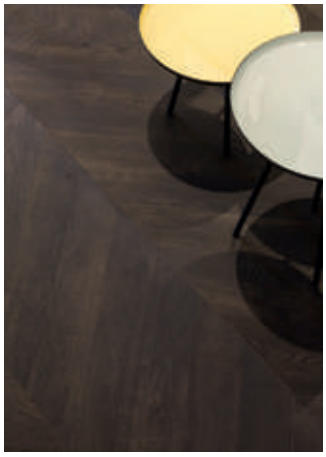
Wellness is very much alive in architecture. We're constantly looking for ways to make our homes more efficient, easier to maintain and better for our overall wellbeing.

Cocooning has taken cosiness to a whole new level. Modern homes have become a safe haven, away from the stress of everyday life. We invite softness, silent serenity and welcoming warmth inside and we love to surround us with natural light and greenery.

There was a time when we used to think of rooms as individual spaces, each with a specific function. Today spaces organically flow into one another: a kitchen is part of the living area and a bathroom in the master bedroom is no surprise. Flooring solutions need to be able to handle every situation.

moduleo
Design Floors

I A T E



Functionality is key when it comes to flooring. But it's the design that makes all the difference. We want it to look good. Genuine. And true to nature. We favour authentic materials but we don't want to give up on convenience. That's why we choose design inspired by nature, cleverly improved to match our desired level of comfort.

We love to play with contrasts nowadays – and rightly so, it makes an interior much more interesting. By mixing and matching materials and design elements, we build a unique and personal interior. A floor is often the supporting act, but it can be the eye catcher of a home as well.

And what to think about the comeback of herringbone patterns? They give both classic and modern interiors a contemporary twist. And they are here to stay.

FOR THE LOVE OF DESIGN

8.

At Moduleo™, we're constantly researching trends, design and performance to ensure we put together a contemporary range of beautiful, practical and durable design floors that meet people's needs and expectations.

Inspired by how people live today

That's our strength. We design and develop our design floors completely in-house. When it comes to fashion and design, Belgium has always been on the crossroads of Europe, a good place for new ideas. And the same goes for flooring design: Belgian designers keep an open mind, pick up local evolutions really fast and have the ability to transform new tendencies into a future proof flooring offer with wide appeal.

CINDY VAN MOORLEGHEM
Marketing director IVC Group

Building on the undoubted success of the Moduleo™ brand and the first design floor collections in 2012, Moduleo™ now launches its third generation design floors. So what's new? On-trend design of course.

A beautiful **design** floor for every **style** and **personality**.

But there's more to it than design

That's true. Let's not forget Moduleo™ Design Floors also have great functional features. In collaboration with R&D, new steps were taken in the fields of wellness, acoustics and performance. Moduleo™ floors have a soft and warm feel, excel in acoustic comfort and come with an improved protective layer that makes them more scratch, stain and slip resistant. They are waterproof and easy to maintain. One by one arguments that close the deal, no?

Our design floors are sustainable

Choosing Moduleo™ is making an eco-friendly choice for the future. Our factory in Belgium is equipped with three wind turbines and is cooled with water from the nearby Scheldt River.

Beautiful and realistic design is key

Our new design floor collection is on-trend, ranging from pure and more pronounced woods to elegant and more distinctive stones. With colour variations from light to dark and everything in between.

We've improved the look of must-have oaks. We bring new wood species to the range. Our tile range now offers more options. And we introduce more 'abstract' designs to make sure that vinyl planks and tiles can stand out as a material choice with an own unique look.

For people who prefer a refined design is a herringbone pattern available. So there's a design floor for every style and personality. And we offer a wide variety of options to choose from.

10. The Design Studio.

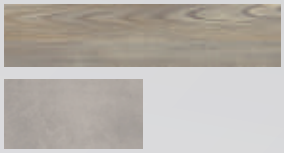
Moduleo™ floors are all about design – and more. Discover what makes the design so beautiful and take a closer look at the unique features of luxury vinyl floors. Welcome to Moduleo™ 's design studio.

WHEN
DESIGN
MEETS
INNOVATION

DESIGN VARIETY

Original hardwood planks are never identical. There always is some kind of natural variety within the designs. A Moduleo™ floor is absolutely unique too. We create an authentic floor with hardly any repetition of planks or patterns. Our bestseller size has no fewer than 90 unique planks per design.

Design.



TRUE-TO-NATURE DESIGN

The wood and stone designs of the Moduleo™ collection are all inspired by nature and entirely designed, developed and printed in-house. Every design has pin-sharp details, making sure your floor looks as unique as nature.

The collection ranges from pure and more pronounced woods to elegant and more distinctive stones. One by one beautifully designed, so you'll definitely find a floor that fits your expectations and interior.

DESIGNED TO MAKE IT BEAUTIFUL

NATURAL LOOK AND FEEL

Moduleo™ Design Floors are inspired by nature, so they have to look and feel that way. Next to design, we increase their realism by improving the floors' texture as well: the added texture ensures a natural appearance and truly authentic touch.

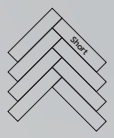
EMBOSSED IN REGISTER

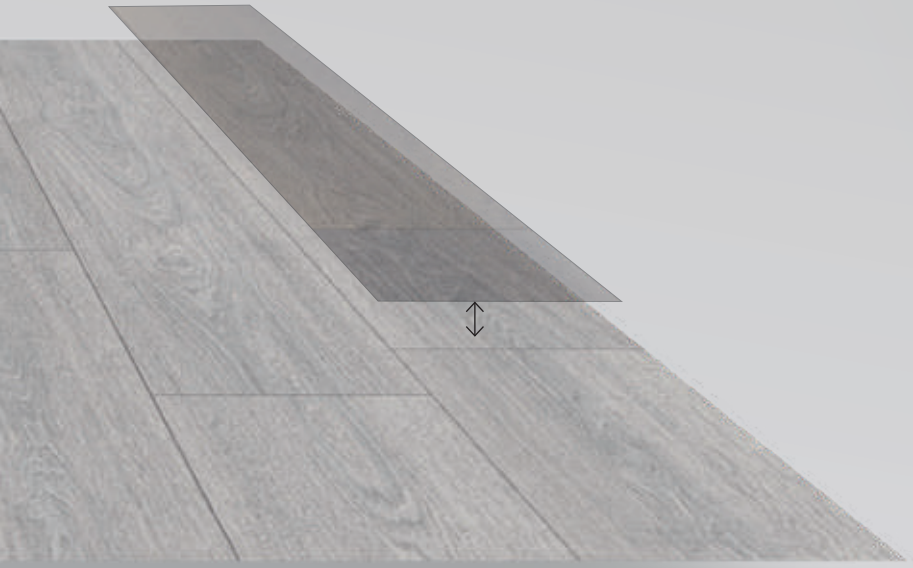
What's your first impression about the Impress collection? The 'embossed in register' process brings to life the smallest details of real wood: the embossed texture allows you to see and actually feel the depth of the wood grains and knots.

HERRINGBONE RANGE

Do you prefer a more refined design? Moduleo™ also introduces an exciting herringbone range with short planks in the exclusive Parquetry collection.

PARQUETRY

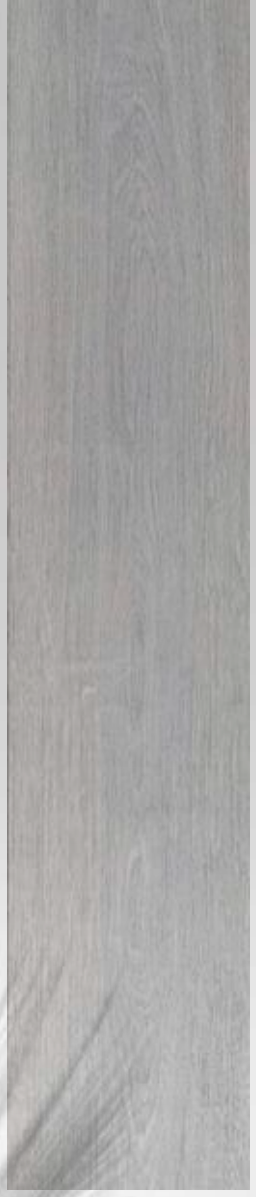




moduleo®
Design Floors

JUST SENSE ITS SOFTNESS & SILENCE

Moduleo™ Design Floors offer you a truly soft touch underfoot. That makes vinyl flooring truly unique!



14.

SOFT & WARM FEEL

Without knowing it, your feeling of wellbeing increases when walking over a Moduleo™ Design Floor. The resilient layer anticipates your body weight, offering you that soft feel underfoot. And what's more, it feels naturally warm too. Because a Moduleo™ Design Floor has great insulating qualities, its temperature remains comfortable in every season.

Soft.

Moduleo™ Design Floors reduce reflective walking sound and transmission sound to a very comfortable level.

Silent.

SILENT ACOUSTICS

One of the main benefits of a Moduleo™ Design Floor is its acoustic comfort. Vinyl is resilient, so it reduces reflective walking sound and transmission sound to a very comfortable level. That's a valuable asset for both you and your neighbours below. If you want to avoid any annoying noises inside, Moduleo™ simply offers you the ultimate flooring solution.

UNDERFLOOR HEATING

Not warm enough? A Moduleo™ Design Floor is perfectly compatible with underfloor heating.

IT PERFORMS GREAT AGAIN AND AGAIN

16.

Perform.

FULLY WATERPROOF

Vinyl repels water, making a Moduleo™ floor the perfect solution for kitchens and bathrooms – and for every space at home for that matter. Water balloon fight inside? No problem. The floor is water and slip resistant, and easy to maintain.

Did you know a Moduleo™ Design Floor is one of the most durable flooring solutions available?
The in-line calendered lamination of the different layers prevents the floor from delaminating due to moisture, so you'll enjoy the floor for years.

PROTECTIVE TOP LAYER

Your Moduleo™ floor can take a beating – that's very reassuring, don't you think? It is wear, scratch and stain resistant. The wear layer and patented Protectonite PU coating protect the design, prevent wear and limit scratches. A Moduleo™ Design Floor can grace any place. Intensive use allowed. Even a big crowd is no problem.

EXCELLENT STABILITY

The patented system with extra strong glass fibre layer guarantees the high dimensional stability of every Moduleo™ Design Floor, resulting in minimal shrinkage and expansion due to variations in temperature or humidity.

GUARANTEED QUALITY

When properly cared for, a Moduleo™ Design Floor is extremely durable. That's why we gladly offer you long-lasting residential warranties*.

NO INDENTATION

Although a Moduleo™ floor is resilient, it has no indentation issues. The floor returns to its original state when weight or pressure (from heels or furniture legs for example) is reduced, this is what we call the memory effect.

LOW MAINTENANCE

Not that big a fan of household chores? The protective top layer repels dirt, dust mites and other allergens. Any stains can be removed in seconds. Simply sweep, mop or vacuum your Moduleo™ Design Floor to keep it spotless and hygienic – saving you time for fun.

No matter how big or how small a room is, the colour of a Moduleo™ Design Floor will always have an impact on the feeling of space you get inside. Light and white floors have the ability to really open up the room – no need to throw out half your furniture.

With a light-coloured Moduleo™ Design Floor, you bring a sense of serenity into your home: a clean look with a Scandinavian touch. And should you be afraid that a white floor couldn't handle the hazards of everyday life, rest assured, Moduleo™ floor is stain resistant and easy to maintain.

GREY

Grey is neutral. It represents quiet confidence. Grey floors keep any interior light and fresh. They are timeless and bring balance. They match soft whites perfectly, but work really well with almost every palette. And the decorating possibilities are endless. Give grey a change.

Grey Moduleo™ Design Floors are often the supporting act: they let other parts of the room do the talking, whether it's a piece of design furniture, decorative greenery or a daring colour accent. In fact, it complements a range of colours rather than clashing with them.

Grey tones from weathered wood to charcoal.

Grey is on-trend, and it won't be going out of style any time soon. Weathered wood in muted tones of grey gives a room a relaxed, even beachy feel. The planks look like they have aged for years. For a surprisingly refreshing yet very sophisticated interior. Who said anything about boring?

STAY TRUE TO YOUR NATURE

Nature is the greatest designer of all – no question about that. At Moduleo™ we always try to reproduce nature's beauty down to the last detail. With stunning success. You don't have to believe what we say, just take a look around and convince yourself.

The best thing about it: a Moduleo™ Design Floor with natural wood effect requires no sanding, polishing or lacquering. It's a wonderfully durable flooring solution. Just a quick vacuum or mop will keep your floor's natural appearance for years. Enjoy it.

Wild and free.
But warm and welcoming.

In a clean interior, a wildly dynamic Moduleo™ floor becomes the eye catcher of the room. And rightly so. The timber look floors in the Moduleo™ range really stand out with their natural design. They're warm and welcoming. And they come in a variety of colours.

LIKE A WALK IN THE DARK

Laurel Oak 51992 / IMPRESS

Bohemian 61974 / IMPRESS

Dark interiors are super trendy right now. A dark design floor in your home maybe isn't the most obvious choice, but it's definitely a surprisingly smart solution to create a sense of intimacy inside.

Now does a dark floor make a room look smaller? Not necessarily. It's actually a beautiful way to brighten up an interior. The trick is to find the right balance between dark and light elements. Let a dark floor contrast with bright colours in your furniture, walls and ceiling. And repeat a darker accent here and there.

Design Floors by

Enterprising with an eye to the future, producing with an eye for quality

Moduleo™ sets the standard for future generations of luxury design floors. On the one hand, it combines sustainable production with the ease of installation and maintenance of vinyl floors. On the other, Moduleo™ truly stands out because of its range of designs and innovations.

With a diverse range of durable, stylish products and the convenience of an all-in floor solution, as well as excellent customer service and unparalleled 'green' credentials, Moduleo™ is proud to be different.

Moduleo™ is produced in IVC's vertically integrated factory in Avelgem, Belgium, which is specially constructed to enable IVC to produce flooring in a responsible manner. In addition, IVC has a fully automated warehouse on site with the capacity to store 2,000,000 m^2 of Moduleo™ flooring. Not only are a large number of energy-saving and waste reduction measures in place in its factory, unlike other producers IVC has full control over the design, production and logistics process. This allows IVC to retain total control, every step of the way.

Eco is so logical, we believe it goes hand in hand with the economy

Choosing Moduleo™ is making an eco-friendly choice for the future. Working from IVC's purpose-built, eco-friendly production plant in Avelgem (Belgium) is just one of the ways IVC is doing things differently, but it is the most important contribution to a more beautiful environment.

Green energy production

The factory in Avelgem is equipped with three wind turbines that fulfil the strict health and safety standards for noise and visual pollution. The turbines can generate up to 13.3 GWh/year (equivalent to the annual consumption of over 2000 households) and provide one third of the factory's energy needs.

Ingenious cooling system

During the manufacture of quality vinyl floors, cold water is required to absorb heat during the various production phases. IVC has devised an original solution for this, which uses the water of the nearby Scheldt River as a secondary coolant. Using minimal energy, the river water is pumped into the closed loop system of the cooling water for the installations.

If you are looking for a sustainable flooring solution, think of Moduleo™ first!

84. The warranty.

Terms and conditions of the
Moduleo™ product warranty.

All Moduleo™ products are fully guaranteed by Godfrey Hirst Australia – Australia's leading carpet manufacturing and hard flooring distributor.

Full details of our warranties are set out in the Moduleo™ Floor Care, Maintenance and Warranties guide, available at www.moduleo.com.au.

Moduleo™ floors must be installed in accordance with relevant Australian Standards and in conjunction with the Moduleo™ Installation Instructions.

Specifications and colourations are subject to manufacturing tolerances. As part of Godfrey Hirst's continuous improvement process, Godfrey Hirst reserve the right to change the specifications of or delete colours of this product without notice.

While all care is taken, product images may vary in colour due to possible printing process variations. Images do not seek to duplicate the exact visual appearance, but serve merely as a guide or point of reference. Actual samples should be inspected at your nearest retailer to confirm texture and colour before making a purchase decision.
